

Microsoft 365 Business Premium: The hero offering for small and medium sized business customers.

Microsoft 365 Business Premium is a complete, intelligent solution that combines Office 365, Windows 10, and Enterprise Mobility + Security to empower employees to be creative and work together, securely. It integrates Microsoft's best-in-class productivity tools with advanced security and device-management capabilities to help safeguard your business.

KEY FEATURES -----

Work together anywhere

Access your emails, contacts, and calendars across your devices even when offline with Outlook to help you stay connected to customers or coworkers. Connect with customers and coworkers using Microsoft Teams to instant message to answer quick questions, or host or join an online call or video meeting from your favorite device. Easily present, share and collaborate on documents (or a virtual whiteboard) within the meeting space.

Enterprise-grade device management and security capabilities

Protect your data and devices against malware, malicious attacks, and device loss or theft. BitLocker, BitLocker to Go, and Windows Information Protection help protect business data on mobile devices by ensuring all business data is encrypted and accessible only by authorized users. Further protect Windows 10 devices from unauthorized access using Windows Hello multi-factor authentication to strengthen your users' device credentials.

Help protect your devices, data, and people

Know that lost or stolen devices are protected with Windows 10 built-in encryption capabilities like BitLocker and BitLocker to Go. Help prevent accidental data leaks by securely separating business information from personal information with Windows Information Protection, and perform a remote Selective Wipe of business data on demand while leaving personal data untouched. Make sure employees always have access to files while confining company information to Office apps, using App Protection.

Get up and running fast

Save time by easily configuring security features and settings on Windows 10 devices with Mobile Device Management, fully automating your Windows installation with Windows AutoPilot, and enabling or disabling Windows Store or Cortana on company-owned devices with Enhanced Manageability.

KEY BENEFITS

Work better together and get more done

Collaborate, share, and communicate with flexible tools that go where your team goes. Connect better with customers and colleagues with a range of communication tools, from email and IM to social networking and video conferencing. With multiparty HD video, content sharing, shared calendars, and team chat, you'll always be in sync with your team. Further increase productivity with Office apps enhanced with the latest AI tools.

Make better decisions with intelligence and analytics

With various analytics and intelligence capabilities, Microsoft 365 Business Premium gives you the insights and assistance you need to do your best work every day.

Scalability

With Microsoft 365 Business Premium, you pay for what you use. As your organization grows, you simply pay for the additional services and storage needed.

More control for your IT staff
